

## **RIAI EGM – ORDINARY RESOLUTION 2**

### **CONTEXT**

At an RIAI Council Meeting held on 18 July 2014, the members of the Council agreed by consensus the following :

- 1. Council endorses both**
  - as a Working Document, ‘Strengthening the System 3’ (1st July 2014) and
  - a process of engagement with a broad spectrum of views**to inform RIAI development of a proposal for an enhanced system of Building Control**
- 2. RIAI members will be made aware of this work and will be engaged in structured feedback and, in accordance with the Strategy, the developed Working Document will be shared with them.**
- 3. Council asks the Steering Group to immediately coordinate the development of a measured and rational Strategy for the promotion of changes to S.1.9 in line with the Working Document in a manner that will build alliances, optimise successful adoption of changes and repair relationships within the Institute and with the Department of the Environment.**
- 4. Council will welcome further detailed proposals for enhancing the system of Building Control from inside and outside the RIAI.**

### **ORDINARY RESOLUTION 2:**

“That the registered members endorse and confirm their support for the decision of the Council made at the July 2014 Council Meeting to develop a working document on Building Control that would propose amendments to S.I.9 of 2014 and constructively engage with stakeholders in order to realise the best interests of the profession for the long term”.

### **PROPOSED BY:**
